---

### Skills

---

C#, Unity 3D, Javascript, .NET, Node.js, React, HTML, CSS, SASS, REST API, MVC Architecture, My SQL, MongoDB, Ableton, Pro-Tools.

---

### Experience

---

#### Freelance / Web Developer

Designed websites for clients using modern technologies including React and Node.js as well as ASP.NET. Client work was mostly front end, but occasionally had to set up MY SQL or Node backends. .

#### Bitstream / C# Developer

SEPT 2018 - FEB 2019, Etobicoke

Worked on the architecture of an iOS and android app using Unity Engine. The app featured elements such as procedural generation and pathfinding algorithms such as ASTAR. There was a heavy emphasis on optimization as graphics and visuals were computationally expensive. Therefore, the code had to be clean and efficient.

#### BAdventure/ C# Developer

FEB 2019 - May 2019, Etobicoke

Worked on creating an iOS and android game using Unity Engine. I architected and managed all aspects of the project including the shaders and game logic as well as managed and created the visual assets as well as the music and sound effects. The app was successfully published to the App Store and is monetized via ads.

#### PCMA / Music Instructor

Sept 2018 - June 2019, Port Credit

Taught piano and classical guitar to students. I provided my students with helpful feedback about their progress and analyze their performance and habits in order to find constructive ways to improve their playing.

---

## Education

---

### University of Toronto / Certificate in Web Development

Currently enrolled. Learned technologies related to web development including Javascript, jQuery React, HTML, and CSS. As well as backend technologies such as Node.js, MySQL and MongoDB. While enrolled in the program I also learned SaSS and Typescript as well as familiarized myself with Angular on my own accord. I have maintained a straight A average.

### Humber College / Bachelor of Music

Specialized in Audio Engineering. Learned modern audio technologies such as Pro Tools, Logic X, and Ableton. As well as sound design principles.
